This document was created on 10 November 2025, 12:43 (local time Frankfurt/Main)

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type Debt instrument in bearer form, evidenced by a global certificate, governed by German law.

Term It has a fixed term and will be due on the Maturity Date.

Objectives The objective of this product is to provide you with disproportionate (leveraged), inverse participation in any price movement of the Underlying. This has the effect, inter alia, that you are exposed to a very high risk of a total loss of your investment. The product is a complex financial instrument linked to one Underlying (NVIDIA Corp.).

- If the Reference Price is below the Strike on the Valuation Date, you will receive a redemption amount on the Redemption Date which equals the amount by which the Reference Price is below the Strike, multiplied by the Ratio.
- If the Reference Price equals or exceeds the Strike on the Valuation Date, no payment occurs and the product expires worthless.

The redemption amount will be translated from the currency of the Underlying into the currency of the product.

Product			
Product Currency	EUR	Option Type	Put
Purchase Price	EUR 10.97	Type of Settlement	Cash
Initial Fixing Date	8 July 2025	Redemption Date	5 bank business days after the exercise date or the Valuation Date

ISIN	US67066G1040	Initial Reference Price	USD 159.60
Currency	USD	Ratio	1
Reference Exchange	Nasdaq Global Select Market	Strike	USD 140.00

The Issuer is entitled to terminate the product with immediate effect if an extraordinary event occurs. Examples of extraordinary events include the delisting or cessation of an Underlying. In this case, the termination amount may be significantly less than the amount you invested. A total loss of the investment is possible. You also bear the risk that the product will be terminated at a time unfavourable to you, and you may only be able to reinvest the termination amount on less favourable terms.

Intended retail investor The product is intended for retail investors who seek to disproportionately participate in price changes and / or to hedge another investment and have a very short-term investment horizon. The product is designed for investors with advanced knowledge and / or experience with financial products. The investors are able to bear a total loss of their invested amount and do not attach any importance to capital guarantees.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Issuer and the Guarantor are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are very unlikely to impact the capacity of the Issuer and the Guarantor to pay you. **To the extent the currency of the country in which you purchase this product or the account to which payments on this product are credited differs from the product currency, please be aware of the currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies.** This risk is not considered in the indicator shown above. This product does not include any protection from future market performance so you could lose some or all of your investment. If the Issuer and the Guarantor are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:	1 calendar day (sample period)	
Investment:	EUR 10,000	
Scenarios		If you exercise at the end of the sample period (1 calender day)
Minimum scenario	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress scenario	What you might get back after costs Percentage return (not annualized)	EUR 0 -100%
Unfavourable scenario	What you might get back after costs Percentage return (not annualized)	EUR 0 -100%
Moderate scenario	What you might get back after costs Percentage return (not annualized)	EUR 0 -100%
Favourable scenario	What you might get back after costs Percentage return (not annualized)	EUR 0 -100%

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The scenarios shown represent possible outcomes calculated on the basis of simulations.

What happens if Vontobel Financial Products GmbH is unable to pay out?

You are exposed to the risk that the Issuer and the Guarantor might be unable to fulfil their obligations in respect of the product and the guarantee – e.g. in the event of insolvency (inability to pay / over-indebtedness) or an administrative order of resolution measures. In case of a crisis of the Guarantor such an order can also be issued by a resolution authority in the run-up of an insolvency proceeding. Thereby the resolution authority has extensive intervention powers. Among other things, it can reduce rights of the investors to zero, terminate the guarantee or convert it into shares of the Guarantor and suspend rights of the investors. **A total loss of your capital invested is possible.** The product is a debt instrument and as such is not covered by any deposit protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- You would get back the amount that you invested (0 % annual return).
- EUR 10,000 is invested.

	If you exercise at the end of the sample period (1 calender day)
Total costs	EUR 403
Cost impact*	4.2%
(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.	

Composition of Costs

		If you exercise after 1 calender day
One-off costs upon entry or exit		
Entry costs	These costs are already included in the price you pay.	EUR 403
Exit costs	Not applicable.	EUR 0

How long should I hold it and can I take money out early?

Recommended Holding Period: 1 calendar day (Sample period)

It is not possible to individually recommend a holding period. Due to the leverage the product reacts to smallest price movements of the Underlying leading to losses or profits within unpredictable time periods. Any individual recommendation regarding the holding period would be misleading information for a speculative investor. For investors purchasing the product for hedging purposes the holding period depends on the hedging horizon of the individual investor. You may exercise the product on any bank business day from the First Exercise Date by instructing your depository bank to (1) transmit an Exercise Notice to Bank Vontobel AG, Zurich (Exercise Agent) in accordance with the notice period, and to (2) transfer the exercised products to the Exercise Agent. Upon effective exercise you will receive a Redemption Amount as described in more detail under “What is this product?” above. In addition, you may cash in the product earlier by selling the product through the exchange where the product is listed or outside of such exchange. If you should sell the product instead of exercising it, the amount you will receive could be lower than the amount you would have otherwise received. The redemption described in section “What is this product?” above only applies if the product is held until maturity.

Exchange Listing	Frankfurt Stock Exchange (Freiverkehr), Stuttgart Stock Exchange (Freiverkehr)	Last Exchange Trading Day	18 December 2026, 12:00
Smallest Tradable Unit	1 Product	Price Quotation	Unit quotation

A sale of the product may in particular not be possible under exceptional market circumstances or in case of technical disruptions. If you sell the product before its maturity, you may receive back less than if you had kept the product until maturity.

How can I complain?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person via the relevant website. Any complaint regarding

the product, this document or the conduct of the Manufacturer and/or the Issuer of this product can be submitted in text form (e.g. by letter or e-mail) to Bank Vontobel Europe AG, Structured Products, Bockenheimer Landstrasse 24, 60323 Frankfurt/Main, Germany, email: markets.deutschland@vontobel.com, website: markets.vontobel.com.

Other relevant information

The prospectus, any supplements thereto and the final terms are, in accordance with legal requirements, available free of charge on the website <https://prospectus.vontobel.com>. In order to obtain more detailed information - and in particular details of the structure of and risks associated with an investment in the product - you should read these documents.
